

Wavin is a front-runner in sustainable water management solutions – the European market leader of plastic pipe systems and solutions – backed up by 60+ years of innovation.

At Wavin, we focus on creating positive change in the world. Our passion is building livable and loveable environments where people can live healthy, happy lives – today and tomorrow. We engage and collaborate with city leaders, engineers, planners and installers to help make cities future-proof and buildings comfortable and energy-efficient. We contribute to tackling global challenges like safe & efficient water supply, better sanitation & hygiene, and help to create climate-resilient cities – one community at a time. Wavin is part of Building & Infrastructure, the largest business group in Mexichem. Mexichem has 17 R&D facilities, 22'000+ employees and 40 locations worldwide.

Are you ready to look into (Y)our future?

To facilitate our growth and vision to bring our organization to the next level, Wavin is looking for a:

Supply Chain Coordinator

The Supply Chain Coordinator holds the responsibility for analyzing, initializing and management of improvement projects in the supply chain at its full scope; from the creation of the forecast until the goods delivery and the financial settlement. Special focus in this job lies with:

- Assist with the new S&OP process: take the lead about the supply review, weekly balancing meeting; Coordinate work of detailed scheduler and material planners in direction of executing the S&OP plan. Organize weekly balancing meetings where all fluctuations can be discussed and communicated to supply planning leader;
- Stock management
- Group projects: SAP IBP; new product introductions ...;
- Projects specific to Hardenberg: stock obsolescence + complexity reduction + service level improvement and analysis; master data management; + continuous improvement (stock availability; process; stock level; cost...);
- Ensure the daily link between the planning department and the request from the other departments (Customer Service, Purchasing, Manufacturing and Finance).

Your qualities

- Holds a master or bachelor's degree in the field of operations planning/logistics/project management;
- Minimal 3 years work experience (in line management and/or consultancy) in a relevant industry;
- Certified Supply Chain professional (APIC);
- Experience in project management;
- Strong analytical skills;
- Leadership, pilot, autonomies;
- Familiar with working in a matrix organization. The role is by definition very cross-functionally oriented;

- Positive mind; find solution to solve problem;
- Excellent (international) communication skills;
- Systems knowledge and experience of SAP R/3 (MM and PP), APO SNP;
- Knowledge and experience of Reporting & Analytics: SAP BW/ BO, MS Office;
- Good command of the English language (oral and written).
